Continuation of Substance of Interview including description of the general nature of what was discussed:  
The Examiner initiated the interview to request clarification of a statement in the Reply filed 22 September 2003 indicating that a document amending the first line of the specification to include the chain of priority was filed with the application. Applicant's representative was informed that no such amendment is present in the USPTO records. Applicant's representative said that he would call back after reviewing his records, but had not responded as of 16 October 2003..
